June 2022

Congratulations to our Grade Six Graduates!

Jayeal Anderson and Silver Molendyk

Everyone is invited to join us for an outdoor K-6 musical celebration on Thursday, June 23 starting at 9am.

A BIG THANK YOU to our Zoo volunteers!

It was a great day.

Congratulations to our 7 Farm Safety Poster Contest winners. They were honoured during the Cremona Aggie Days. We are so proud of you!

Superintendent's Message

Sharing a sense of pride as we reflect on an exceptional year

A Message from the Superintendent

As the end of this school year approaches, the Board of Trustees and Central Office team would like to express our deep gratitude for all that has been achieved in schools across our division. Our Chinook's Edge school communities rallied through a tide of challenges that ebbed and flowed throughout this past school year. Everyone was determined to ensure meaningful learning took place each day, through hard work, resilience and goodwill.

Our schools are filled with educational leaders who ensure a safe and caring environment for all students. They are all committed to our divisional goals: Academic Excellence, Career Connections and Social Emotional Well-being, which we firmly believe are key to student success as they progress through the grades and throughout their lives. Chinook's Edge has generated clear strategies to support every student in their learning journey and to create an upward momentum that helps them realize their hopes and dreams.

Thank you to our students, our teachers and our entire Chinook's Edge team for your hard work throughout the year, and to parents and community partners who are engaged in learning alongside us. Chinook's Edge students are surrounded by people who truly care about them and about their success. Thank you for challenging, encouraging and believing in each one of them. Enjoy your summer!

Kurt Sacher

Superintendent of Schools

We would love to hear your thoughts on this month's [parent survey](#): What comes to mind when you think of your child's school experience this past year? Remember to visit our [Assurance for Parents](#) page for regular updates!

MS. TETZLAFF'S K-2 CLASSES

Kindergarten:

Numeracy: - We will continue with our 3D shapes unit and begin exploring our next unit of Measurement.

Literacy: we will continue to reinforce alphabet recognition and letter sound knowledge with a variety of activities. We will continue to work on building and recognizing small words, working on our rhyming skills and completing our printing books. Some basic sight words you can introduce over the summer are: a, at, and , is, in, it, I, see, my

Social/Science - We are learning how to take care of our world.

Few little notes to Remember:

1. **JUNE 23rd** - Will be our official **LAST DAY of kindergarten** for the year! We finish up a little earlier than those attending Grade 1-6.
2. **June 14th** will be the last day we send books out for our Read at Home Program. Please send the books all back by the following week. It is very important that we get these books returned each week for others to use.
3. **Last Library Day for the year will be June 14th-** Please make sure all library books are **returned**

Grade 1/2 class:

Numeracy: We will continue to review/work on learning the basic addition and subtraction facts to 20(Grade 1) using a variety of different strategies and working on addition with double digits with regrouping (Grade 2). We will be working on our 2D-3D unit exploring characteristics of each shape.

Literacy: We continue to work on improving our **reading and writing skills** as we work daily on our sight words and various writing activities. I encourage my students to try and read every day for at least 10-15 minutes a day. Daily home reading is one of the best ways to help your child improve their reading ability. **June 14th is our last library day and June 16th will be the last day we send books out books for our Read at Home Program.** Please send the books all back by the following week. It is very important that we get these books returned each week for others to use.

Social- We are learning about how to take care of our world.

Science -Needs of animals and plants.

I want to thank all my amazing parents and grandparents that I've had supporting us this year. You and your support are appreciated more than you will ever know. It has been a great year with my kindergarten, Grade 1 and 2 class! They have been a true joy to teach and I'm grateful for the opportunity I had to teach them. Please remember to practice reading and writing this summer. Children at this age need continued practice of new skills. Even if your child is above reading grade level, it is important to continue to read often :) Hope you all have a wonderful, relaxing and safe summer!!

MS. CRANSTON'S GRADE 3 & 4 CLASS

Language Arts: We are looking at creative uses of writing including poetry and reader's theatre to finish off our year.

Math: We are working on our last units of measurement and data collection and graphing. Students will then begin a review unit where we retouch on some of the most important skills we have learned this year such as addition/subtraction, multiplication tables and fractions/decimals.

Social Studies: We are looking at how Albertans celebrate our history, including museums, and historical sites.

Science: Our crops are growing, and the students are beginning to see the results of the experiments they created and planted. They are testing seed spacing, fertilizers and types of crops grown. We will be using some of the data from this unit to graph for our data collection unit in math.

This has been a fantastic year in our class! Have a wonderful summer and I look forward to seeing you next year!

MR. SEIDEL'S GRADES 3/4/5/6

Language Learning 5/6.

- Practice achievement reading selections.

Science 5/6.
